The "CROWN"
Bath Heaters

This Heater has proved itself to be one of the **safest, most rapid in heating, and most economical** on the market.

They are constructed of the **Best Material** by expert workmen.

They are simple in construction, and have an **even distribution of water**.

They are water-jacketted and therefore there is **no danger of burning**.

They are made on scientific principles, there being **no possible risk of explosion**.

They have **no limit as to the quantity of hot water**. The water is heated as it passes through the Heater, giving a continuous stream of hot water.

They give the **best of results** owing to the large amount of heating surface.

They are the **most economic & safest** of heaters.

We do not claim that our Heater will give a hot bath with a couple of newspapers, but we do say that they are the most economical in fuel consumption.

Call and see them working.

40 Armstrong St. North, Ballarat.

Brushware.

In Brushware, quality as a test of value is far before the consideration of price, although brushes of many kinds, apparently the same in number or size, may be offered at a lower rate, we conscientiously believe our goods will be found cheaper in the end on account of their superior quality and consequent durability.

40 Armstrong St. North, Ballarat.

Cast-Iron Furnace Frames

THE REASON WHY THEY ARE BETTER AND
—CHEAPER THAN BUILT-IN FURNACES.—

Because

They consume less fuel.

They boil quicker.

They are safer.

Being made in four sections there is no fear of
breakages through contraction or expansion or
..... overflow of water.

Home Decorations.

About every home there are some things which are not as pleasing in appearance as you would like, yet too useful to throw away. We will tell you how to render them ornamental as well as useful.

Sapolin Varnish Stain.

It varnishes and stains in one operation.

Sapolin Aluminium Enamel.

Looks like silver plate on kitchen and bath fixtures.

Our Favorite Gold Enamel.

A washable gilding Enamel that applies on any surface.

Sapolin Enamel.

Gives a brilliant, hard, china-like surface on anything.

Sapolin Bath Enamel.

Resists hot or cold water.

Sapolin Stove Enamel.

Will stand heat, for Ranges, Stoves, &c.

40 Armstrong St. North, Ballarat.
